# De-centralized Spa Network

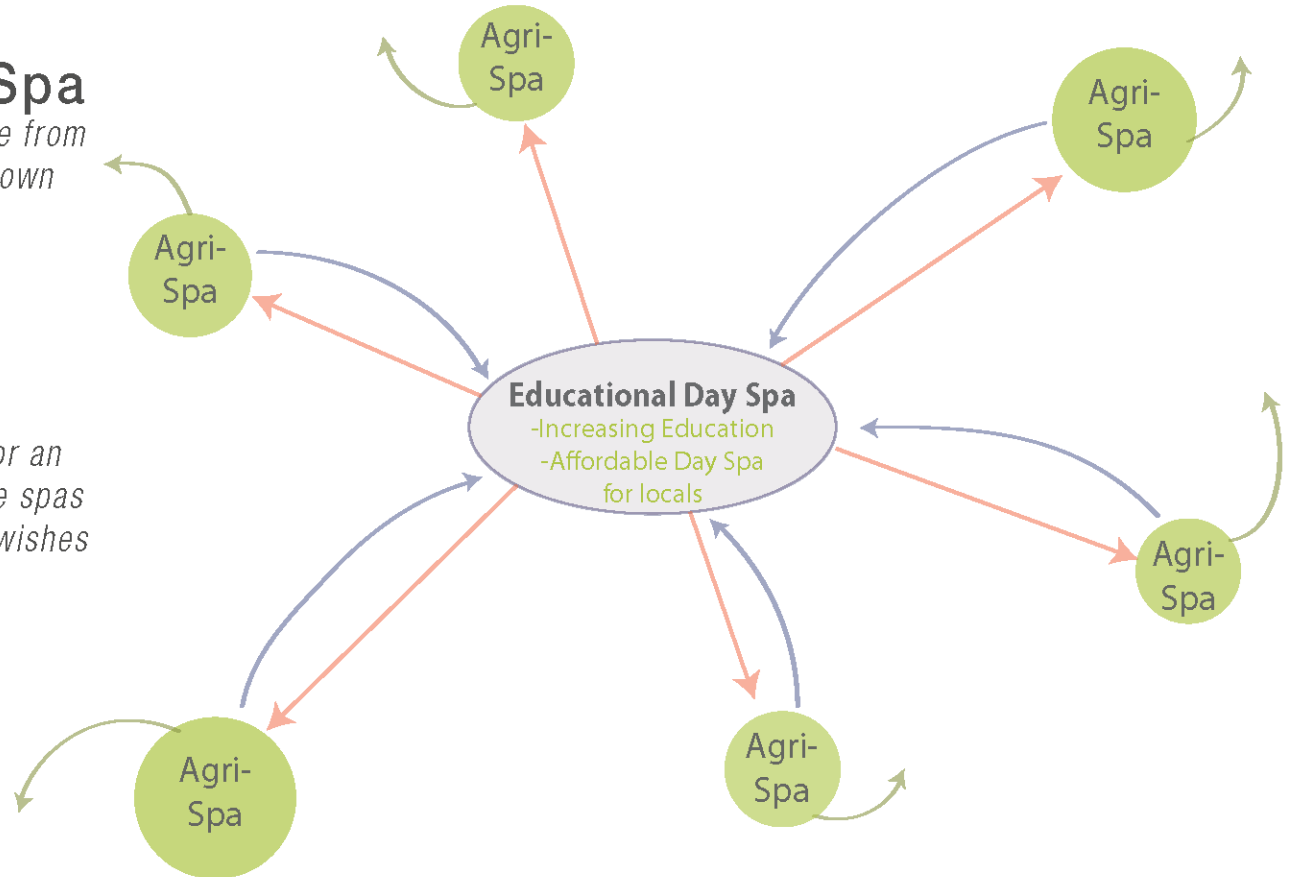

Create a new network that will diversify the town of Kula

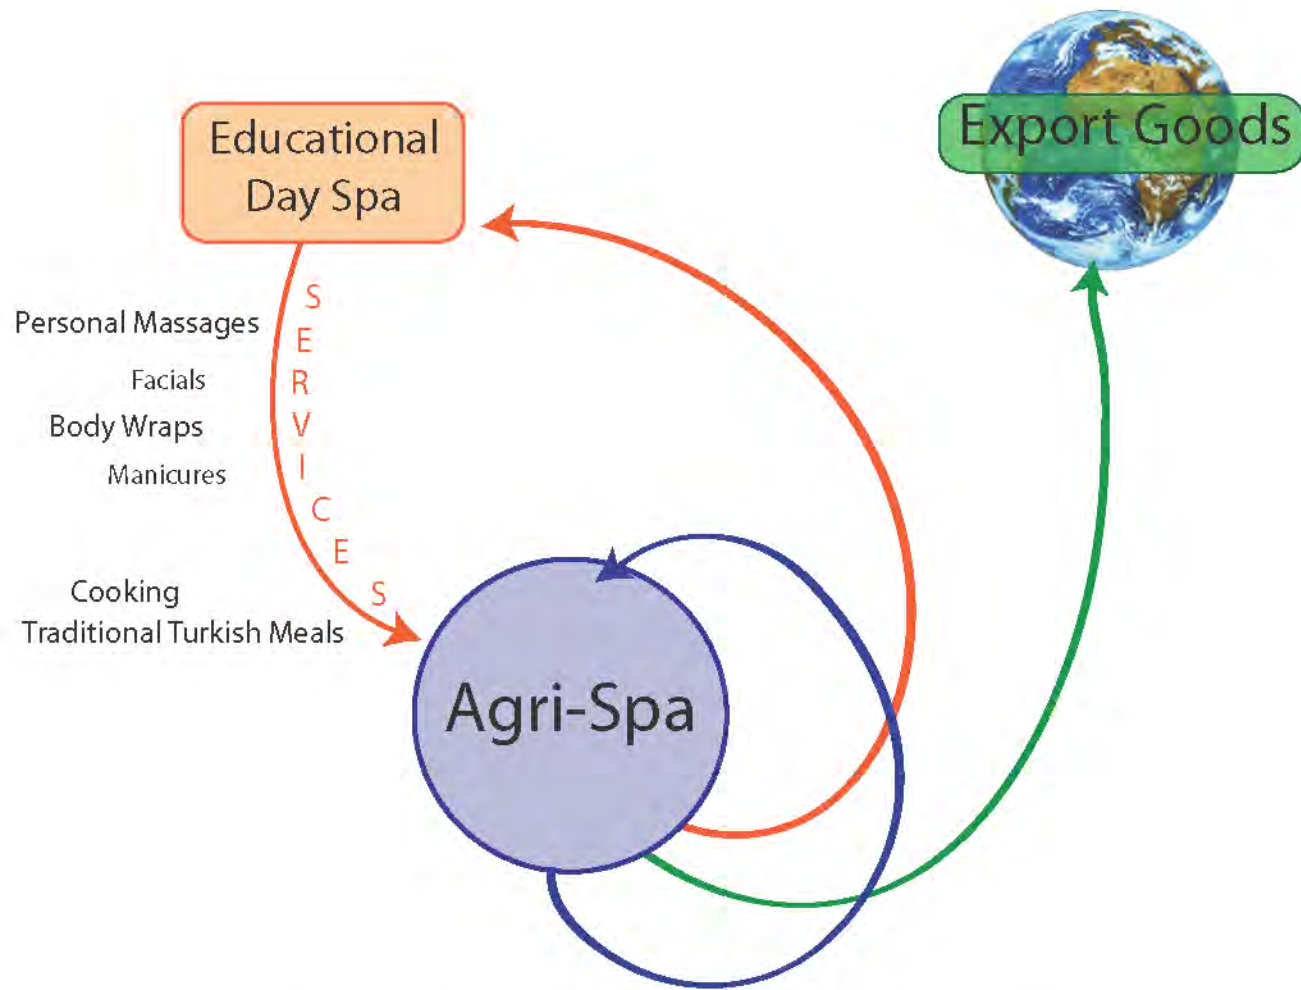

## 1. Education Day Spa

*Located in Kula. Easily accessible from major roads and to residents in town while retaining a pastoral vibe.*

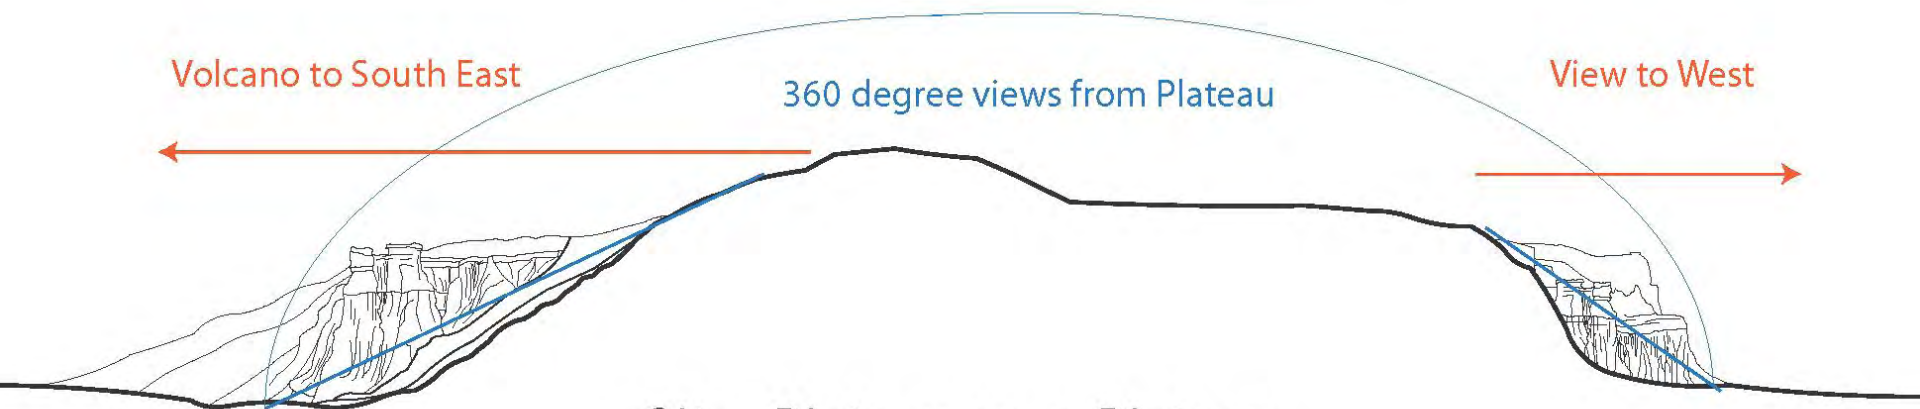

## 2. AGRI-SPA

*This project proposes a design for an Agri-Spa which would be satellite spas located on any willing farm that wishes to partake in this new market.*

*Agri-Spa is a prototype in this social, cultural, and economic model for the region.*

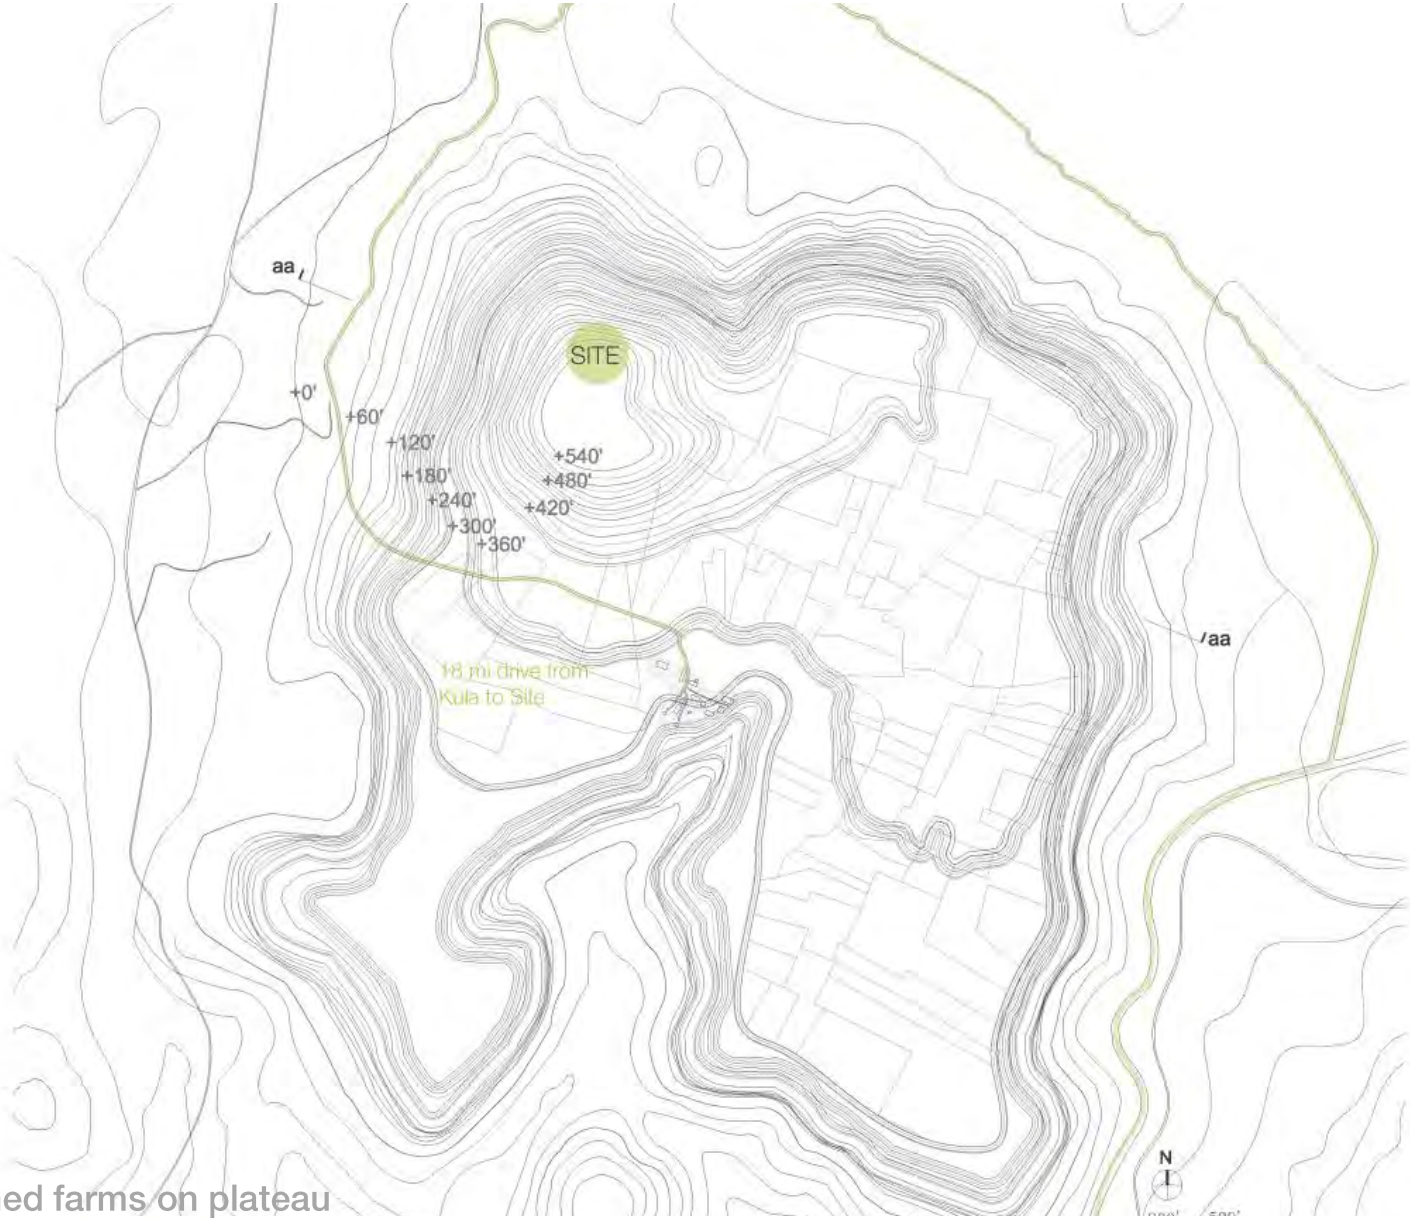

*Site: Plateau on a Plateau*
