

SHAPING THE **BUSINESS** OF WELLNESS

GLOBAL WELLNESS SUMMIT 2018

GLOBAL WELLNESS SUMMIT 2018

SHAPING THE BUSINESS OF WELLNESS AGENDA

The 2018 Summit, with our theme of **“Shaping the Business of Wellness,”** will offer you the opportunity to hear and experience the very latest in the wellness arena—from what will drive this multitrillion-dollar economy in the future to how the industry sectors, once siloed, are transforming into integrated, collaborative models.

In addition to the detail contained within this agenda, you will find a section at the beginning that gives you a “snapshot” of the Summit with each day displayed. We feel this helps you maximize your Summit experience, as there are multiple spaces, each with their own personalities—and you have choices! At various times throughout the Summit, you will be able to choose between keynote presentations on the main stage, interactive Roundtables in the Wellness Center, and panels or presentations in the T-Restaurant, Auditorium 1 or Auditorium 2, 3, 4.

Rest assured that all of the sessions are being recorded in some way: video on the main stage and audio everywhere else. That way, you will be able to access the information from whatever sessions you may miss. Technology has come far, but we still can’t be in five places at once!

We hope you will enjoy the agenda we’ve prepared for you. Whether you seek out a session that relates to your area of expertise or take the opportunity—increasingly popular these days—to cross-pollinate with a sector that might be new to you, it’s all designed to expand your knowledge and build the wellness world’s expertise.

Thank you for being part of the global community.
