Energy Medicine
Quantum Physics

- Heisenberg: You can measure an electron’s exact position – or you can measure the wave’s momentum or speed, but you cannot measure both at the same time.

- A quantum object cannot be said to manifest in ordinary space-time reality until we observe it as a particle - *a thousandth of an inch follow* (collapse of the wave)

- All energy is transmitted in wave packets or quanta.

- Unobserved quantum phenomena are radically different from observed ones.

- The observation makes the quantum wave function collapse.
Ether – The Field – The Matrix

All matter originates and exists only by virtue of a force... We must assume behind this force the existence of a conscious and intelligent Mind. This Mind is the matrix of all matter."

Max Planck

“Humankind has not woven the web of life. We are but one thread within it. Whatever we do to the web, we do to ourselves. All things are bound together. All things connect.”
“My brain is only a receiver, in the Universe there is a core from which we obtain knowledge, strength and inspiration. I have not penetrated into the secrets of this core, but I know that it exists.”

– Nikola Tesla
Energy Medicine is the harnessing of the body’s subtle energy system to create wellness.

Just like your veins and arteries pump blood to keep you alive, so do your meridians pump energy to keep you alive and functioning.

Block energy to an organ and the organ will weaken.

Our body is enveloped in an energy field – an information field. Toxic emotions stored in the field cause many of our ailments, unhealed emotions and psychological trauma.
“The intuitive mind is a sacred gift and the rational mind is a faithful servant. We have created a society that honors the servant and has forgotten the gift.”

~Albert Einstein~
“It truly is amazing and I really do not want to go through what we were experiencing its very debilitating, however am still trying to get my head round it all!

It just makes me realize there is another dimension that I knew nothing about. Makes one feel pretty ignorant!”
